

Birth through Third Grade

As an early childhood educator, you know that there are few things more inspiring than seeing how the work you do each day supports the growth and progress of each individual child in your class. With *GOLD™* by Teaching Strategies®, it's never been easier to understand the impact that you're having on children's development and learning—and what to do next to help every child succeed.

GOLD™ streamlines the process of observation-based, ongoing assessment—and puts all the information that matters to you most right at your fingertips. We've expanded our progressions of development and learning through third grade, and embedded time-saving features into a user-friendly interface that makes assessment more intuitive. You'll know just where to focus your efforts, and just what each child needs in order to succeed—with ready access to meaningful, useful data that can be applied directly to your process of teaching and assessing. So, not only will you have daily opportunities to see each child's growth and progress—you'll also be strengthening your relationships with every one of them. Now, that's inspiring!

Expanded progressions through third grade

GOLD™ lets you see the span of development across the whole of the early childhood years—and offers detailed examples at every level to help you make your assessment decisions and meet the needs of all children, including advanced learners.

Streamlined documentation and checkpoint processes

Our intuitive user interface requires minimal clicks to enter documentation and complete checkpoints, and offers time-saving features that let you get back to doing what you love most—connecting with children.

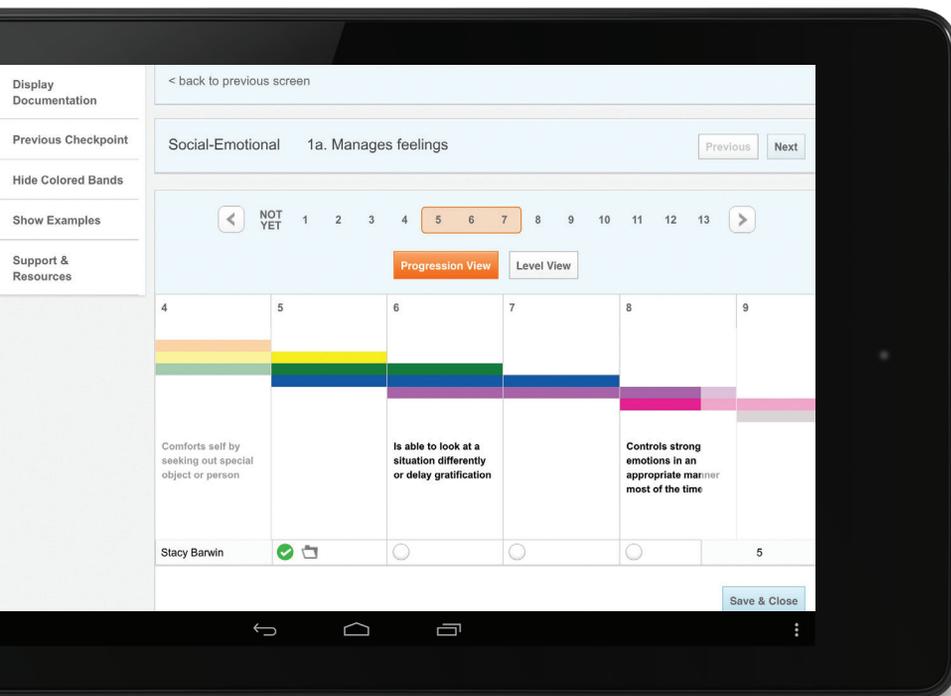

Optimized for tablet use

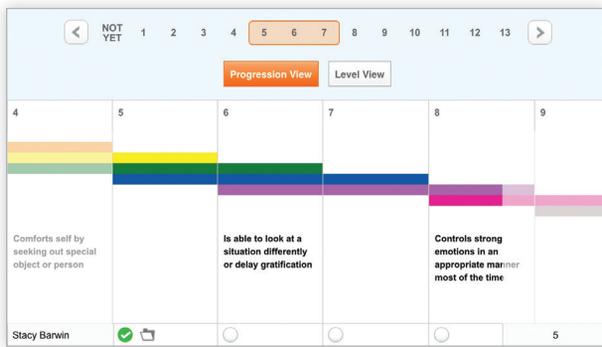

We've made sure that *GOLD™* is fully optimized for use on tablets of all sizes. Our user-friendly interface will automatically adjust to the size of the screen you're working on, without losing any of the seamless functionality.

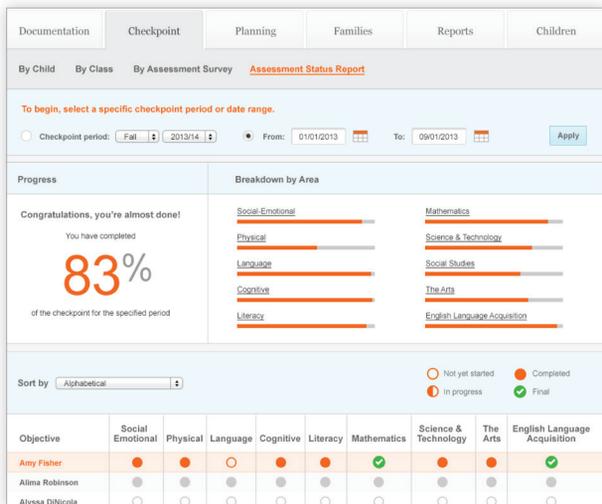

New teacher welcome screen

Our redesigned teacher-entry point puts all the most important information you need to know right where and when you need it the most.

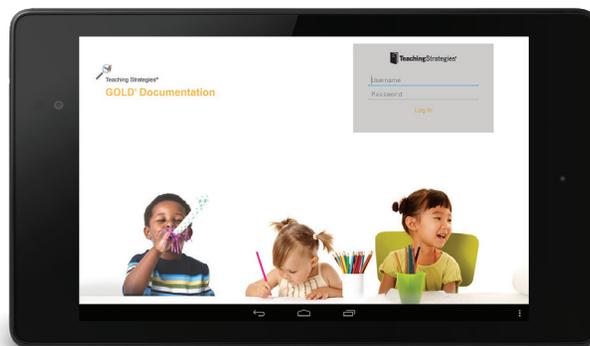

Overlapping, color-coded progressions of development and learning help you see the full spectrum of early childhood at once—and ensure that you're making assessment decisions that are just right for each child.

Cutting-edge reports present data in ways that are easy to read, understand, and interact with—with actionable information that helps you know what you need to do next.

Streamlined, user-friendly documentation screens are intuitive to use and help you focus your efforts on what really matters. Plus, minimal navigation and clicks required for documentation and checkpoints help save you valuable time.

The GOLD™ Documentation app makes capturing documentation simple—helping you create robust portfolios filled with rich audio, video, text, and photo documentation to support assessment decisions.
