 - Carrie added that older and single-owner facilities have even more issues with their equipment and playgrounds.
 - Marty recommended to add information about violations from a licensing perspective and suggested to use the Cabinet's provider survey to get this information. Would need any survey questions by the end of October.
- Council discussed barriers to the funding and provision of high-quality childhood care and education services and supports and opportunities for more efficient use of resources.
 - Marty stated that we need to address muni codes that prohibit the building and operating of child care programs (e.g., child care facilities can only be located on arterial or feeder streets (major streets) and the land/rent is much higher and largely unaffordable to operate a child care businesses).
