

NV ECCS Agency/Program Vision and KPI List						
Notes: Data questions connected, disaggregated, do they answer our questions/demonstrate progress,						
Agency	Division	Program	Mission/Purpose/Statement	Child Indicators	Family Indicators	Workforce Indicators
Maternal and Child Health	Department of Health and Human Services	Division of Public and Behavioral Health	Maternal, Child and Adolescent Health (MCAH) - Title V - Child Health	% of children, ages 0 - 35 months, who received a developmental screening using a parent-completed screening tool in the past year (NPM 6) % of children with and without special health care needs, ages 0-17, who have a medical home (NPM 11) % of Medicaid-enrolled children, ages 0-35 months, who received a developmental screening using a standardized tool (SEM 6.1) % of children meeting the criteria developed for school readiness (NCM 13) % of children, ages 0-17, in excellent or very good health		# of Nevada Medicaid Home Portal website views (EM 11.1)
Maternal and Child Health	Department of Health and Human Services	Division of Public and Behavioral Health	MCAH - Home Visiting (MIECHV)	Nevada Home Visiting exists to develop and promote a state-wide coordinated system of evidence-based home visiting that supports healthy child development and ensures the safety of young children and family members. Number of children served by the NV HV Program % of enrolled children with a timely screen for developmental delay using a validated parent-completed tool % of infants among mothers who enrolled in HV prenatally who were breastfed any amount at a month of age	Number of households served by the NV HV Program % of primary caregivers enrolled in HV who are screened for intimate partner violence using a validated tool % of primary caregivers enrolled in HV who reported using tobacco or cigarettes at enrollment & were referred to tobacco cessation counseling or services within 3 months of enrollment	Data Source: 2021 State Action Plan - https://mchb.nvdata.hhs.gov/NevadaHomeVisitingReport/20210404-491-486-4139-44369d463c3c
Maternal and Child Health	Department of Health and Human Services	Division of Public and Behavioral Health	MCAH - Early Hearing Detection & Intervention	The purpose of the Nevada Early Hearing Detection and Intervention (EHDI) Program is to ensure all children in Nevada are screened for hearing loss at birth and those identified with hearing loss receive timely and appropriate audiologic, educational and medical intervention. % of newborns screened for hearing loss before 1 month of age (preferably before hospital discharge) % of infants who screen positive that have a diagnostic audiologic evaluation before 3 months of age % of infants identified with hearing loss who receive appropriate early intervention services before 6 months of age		EHDI tracking and surveillance system in place
Maternal and Child Health	Department of Health and Human Services	Division of Public and Behavioral Health	MCAH - Title V (Maternal Infant Program, Child & Youth with Special Health Care Needs)	The overall goal of PRAMS is to reduce infant morbidity and mortality and to promote maternal health by influencing maternal and child health programs, policies, and maternal behaviors during pregnancy and early infancy. % of children, ages 0 - 35 months, who received a developmental screening using a parent-completed screening tool in the past year (NPM 6) % of children with and without special health care needs, ages 0-17, who have a medical home (NPM 11) % of children with special health care needs (SHCN), ages 0-17, who receive care in a well-functioning system (NCM 17.2) % of children, ages 0-17, with a mental/behavioral condition who receive treatment or counseling (NCM 18) % of children, ages 0-17, who were not able to obtain needed health care in the last year (NCM 25)		% response rate (goal of 55%)
Maternal and Child Health	Department of Health and Human Services	Division of Public and Behavioral Health	MCAH - Nevada Maternal Mortality Review Committee	The Nevada MMRC conducts ongoing, comprehensive, multidisciplinary reviews of maternal deaths to help determine factors contributing to maternal mortality and EBM and identify public health and clinical interventions to improve systems of care and prevent mortality and morbidity. Ratio of pregnancy-associated deaths per 100,000 live births and number of deaths (by race/ethnicity, age, and county) Ratio of pregnancy-related deaths per 100,000 live births and number of deaths (by race/ethnicity, age, and county) Ratio of Severe Maternal Morbidity (SMM) per 10,000 deliveries and number of cases (by race/ethnicity, age, and indicator)		2018-2020 Report: https://dph.nv.gov/uploads/Files/dph/program/content/Programs/TIM/MIMRC/20202022Combina%20Report.pdf
Maternal and Child Health	Department of Health and Human Services	Division of Public and Behavioral Health	MCAH - MCH Coalition	To provide leadership in partnership with public and private organizations to improve the physical and mental health, safety and well-being of the maternal and child population in Nevada including children with special needs.		# of members for Northern Nevada Coalition and Southern Nevada Coalition (# of newsletter subscribers) # of followers on social media (Instagram and Facebook) and # of website visitors
Health and Wellness	Department of Health and Human Services	Division of Public and Behavioral Health	NV Immunization Program (VIC)	The Vaccines for Children (VIC) Program was created as part of the federal Omnibus Budget Reconciliation Act, Section 10208 of the Social Security Act, in August 1993. The goal of this federally funded program is to improve vaccine availability nationwide by providing vaccines at no cost to VIC-eligible children through public and private providers enrolled in the program. The program is regulated by the Centers for Disease Control and Prevention (CDC) and National Immunization Program (NIP). The VIC program is now operational in all 50 states, Washington D.C., and eight territories including the U.S. Virgin Islands, Puerto Rico and Guam. Nevada began its VIC program in October of 1994. VIC vaccines are purchased under CDC contract, and are supplied to enrolled providers at no cost.		CCV VIC: https://www.cdc.gov/vaccines/imzprograms/vic/index.html
Health and Wellness	Department of Health and Human Services	Division of Public and Behavioral Health	Chronic Disease Prevention & Health Promotion - Wellness and Prevention Program (WPP)	The Wellness and Prevention Program supports and promotes strategies and efforts to create a culture of healthy eating and active living. Current statewide program efforts that impact children, adults, and the Nevada communities in Early Care and Education (ECE) settings, schools, and workplaces include: Enhancing healthy eating options and standards Developing strategies to decrease sedentary time Promoting breastfeeding support Collaborating with local and state partners to promote key behaviors to enhance Nevada's health equity status		Brooke Emaded Patricia Segura on 10/11/22 the Wellness and Prevention Program (WPP) has no direct funding; thus, the indicators for the WPP default to HP200 indicators.
Early Childhood Education	Department of Health and Human Services	Division of Welfare & Supportive Services	Child Care and Development Fund	The CCDF Child Care Program assists low-income families, families receiving temporary public assistance and those transitioning from public assistance in obtaining child care so they can work. CCDF funds are also used for Quality activities to improve the quality of child care by financially assisting child care providers in their professional development and maintaining healthy, safe, appropriate learning environments for children 0-12 years of age. # of children receiving child care subsidy by race/ethnicity, age and county	% of eligible families receiving child care subsidy Average amount of parent co-pay by age of child and county	% of licensed providers participating in the CCDF program
Nutrition	Department of Health and Human Services	Division of Welfare & Supportive Services	Supplemental Nutrition Assistance Program (SNAP)	TANF is designed to provide Temporary Assistance for Needy Families to care for dependent children in their own homes or in the homes of relative caregivers. TANF provides Financial and Support Services such as Child Care, TRANSPORTATION and Other Services. The Nevada TANF program has an employment and training program called NEON (New Employees of Nevada). NEON is an employment opportunity program which assists households with becoming financially independent. NEON serves any TANF eligible household member determined to be a "work eligible individual" which is required to participate in the program. The key performance indicator for the NEON program is the federal work participation rate (WPR). The WPR requires NEON participants to be engaged in an allowable activity for the required number of hours per week based on household composition. The all family WPR is 50% and the two parent WPR is 60%. The goal for the WPR is based on eligibility, household demographics, and work participation information entered into multiple DWSS systems.		TANF performance accountability is measured by the work participation rate, which is a process measure of the extent to which individuals engage in certain activities. NV Dept. of Health and Human Services: http://dhs.nv.gov/TANF/financial_index/ https://nationalchildcare.gov/wp-content/uploads/2020/12/NCS_TANF_FINAL_4.24.19_MED-RE-5.pdf https://www.cbpp.org/research/family-income-support/temporary-assistance-for-needy-families Tanya Stevens provided EPI information & the following links to obtain additional information: https://www.fda.gov/dv/programs/ndf/data-reports https://www.ecfr.gov/title49/chapterI/subchapterB/part101/subpart1/section101.201-2
Employment	Department of Health and Human Services	Division of Welfare & Supportive Services	Employment & Support Services	The Employment and Training (E&T) Unit's primary responsibility is to plan, develop, implement and maintain program policies and procedures for the TANF Employment and Training Program (NEON) and the SNAP Employment and Training program (ESNET). The NEON program provides Temporary Assistance for Needy Families (TANF) recipients a means to acquire employment related education, vocational skills, work experience and job training/mentor skills to allow them to achieve economic independence through employment. The program assists recipients in overcoming barriers to employment by providing support services including, child care assistance, transportation assistance and employment related special needs such as clothing and tools. TANF recipients with significant barriers to employment such as drug/alcohol addiction, domestic violence issues and/or mental health concerns are case managed by the Division's licensed social workers. Training Drug/Alcohol treatment, domestic violence shelter/counseling, and mental health treatment/counseling is available to work eligible TANF recipients via contracts with service providers and referrals to community agencies and organizations. All program services are developed and provided with the ultimate goal of assisting the family achieve their highest level of economic self-sufficiency. The ESNET program provides an orientation and structured job search program to assist Supplemental Nutrition Assistance Program recipients become employed. Assistance with transportation and employment related needs is available. The Employment and Training Unit also participates in a number of TANF-related community initiatives such as, reduction of child poverty, reduction in out-of-wedlock births, teen pregnancy prevention, tertiary legal education/prevention, healthy marriage and faith-based services.		Behavioral Health Care 1) Follow-Up After Hospitalization for Mental Illness: Ages 6 to 17 (FH-CH) 2) Postnatal and Postpartum Care: Timeliness of Postnatal Care (PP-CH) 3) Contraceptive Care - Postpartum Women Ages 15 to 20 (CCP-CH) 4) Contraceptive Care - All Women Ages 15 to 20 (CCW-CH) 5) Low Risk Cesarean Delivery (LCC-CH)
Healthcare	Department of Health and Human Services	Division of Health Care Financing and Policy	Medicaid & CHIP	Primary Care Access and Preventive Care Measure Names: 1) Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents (WCC-CH) 2) Cervical Screening in Women Ages 18 to 20 (CS-CH) 3) Childhood Immunization Status (CIS-CH) 4) Screening for Depression and Follow-Up Plan: Ages 12 to 17 (CDF-CH) 5) Well-Child Visits in the First 36 Months of Life (W16-CH) 6) Immunizations for Adolescents (IMA-CH) 7) Developmental Screening in the First Three Years of Life (DEV-CH) 8) Child and Adolescent Well-Care Visits (WCV-CH)	Maternal and Perinatal Health Measure Names: 1) Live Births: Weight Less Than 2,500 Grams (LBW-CH) 2) Prenatal and Postpartum Care: Timeliness of Prenatal Care (PP-CH) 3) Contraceptive Care - Postpartum Women Ages 15 to 20 (CCP-CH) 4) Contraceptive Care - All Women Ages 15 to 20 (CCW-CH) 5) Low Risk Cesarean Delivery (LCC-CH)	Care of Acute and Chronic Conditions: 1) Asthma Medication Ratio: Ages 5 to 18 (AMR-CH) 2) Ambulatory Care: Emergency Department (ED) Visits (AMR-CH)

Healthcare	Department of Health and Human Services	Division of Health Care Financing and Policy	Dental Services	The Nevada Medicaid Dental Services Program is designed to provide dental care under the supervision of a licensed provider. Dental services provided shall maintain a high standard of quality and shall be provided within the coverage and limitation guidelines outlined in this Chapter. All Medicaid policies and requirements, (such as prior authorization, etc.) except for those listed in the Nevada Check Up (NCL) Manual Chapter 1000 are the same for NCL. Nevada Medicaid provides dental services for most Medicaid-eligible individuals under the age of 21 as a mandated service, a required component of the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) benefit. For Medicaid-eligible adults age 19 years and older, dental services are an optional service as identified in the Medicaid Services Manual Chapter 1000 Dental.	Annually, states must provide CMS with (1) number of children provided child health screening service Annually, states must provide CMS with (2) number of children referred for corrective treatment. Annually, states must provide CMS with (3) number of children receiving dental services.				https://dhhs.nv.gov/Programs/CDF/Dental/ Nevada Dental Dashboard SFY 2024 - https://dhhs.nv.gov/Programs/CDF/DentalDashboard/SFY2024.pdf Quality of Care for Children in Medicaid: Findings from the 2018 Child Core Set Chart Pack: https://www.medicaid.gov/medicaid/benefits/cd-children/quality-of-care/ • Percentage of Eligible Who Received Preventive Dental Services • Dental Services for 6-9 Year Old Children at Elevated Care Risk
Healthcare	Department of Health and Human Services	Division of Health Care Financing and Policy	EPSDT/Healthy Kids	Healthy Kids is a program which provides preventive health care such as immunizations, yearly physicals and referrals for health problems of Medicaid eligible infants, children and young adults. This program encourages referrals for developmental problems, vision, hearing and dental problems as well as family problems.					Annually, states must provide CMS with (1) state's results in attaining goals set under section 1905(f) of the Social Security Act Early and Periodic Screening, Diagnostic, and Treatment Annual (EPSDT) Reporting Using the Form CMS-463: https://www.medicaid.gov/medicaid/benefits/cd-early-and-periodic-screening-diagnostic-and-treatment/index.html NV Dept. of Health & Human Services Division of Health Care Financing and Policy, Healthy Kids Program (EPSDT): https://dhhs.nv.gov/Programs/CDF/PSDT/ Email: medicatoprograms@dhhs.nv.gov on 10/25/22
Healthcare	Department of Health and Human Services	Division of Health Care Financing and Policy	Indian Health Program	Indian Health Programs include the IHS, Tribal Organizations and Urban Indian Organizations (UIOs): 1. Indian Health Service: IHS is a federal agency within the Department of Health and Human Services (DHHS). 2. Tribal Organizations: Tribal Organizations are operated by tribal governments. 3. Urban Indian Organizations: Urban Indian Organizations are nonprofit organizations. It is the policy of the Division of Health Care Financing and Policy for both Nevada Medicaid and Check Up to adhere to the tribal-state consultation process, uphold Title XI of the Indian Health Care Improvement Act, and promote the health care of American Indians and Alaska Natives (AI/AN) within the State of Nevada.					
Children with Disabilities	Department of Health and Human Services	Division of Aging and Disability Services	Nevada Early Intervention Services (NEIS)	The Nevada Early Intervention Services (NEIS) System provides services to children birth until three with developmental delay or disabilities, and their families.	% of children who had services initiated in a timely manner (1) % of children who received the majority of EI services in natural environments (2) % of infants and toddlers with ID/HH who demonstrate improved: a) positive social-emotional skills, b) acquisition & use of knowledge & skills; and c) use of appropriate behaviors to meet their needs (3) # of children assessed in Child Find (birth to one and birth to three) % of overall population (1 & 2)				NEIS and Part C - Combined metrics (numbers after metrics indicate the "indicator number" identified in the plan. State Performance Plan Report: https://dhhs.nv.gov/Programs/ChildDevelopment/Programs/IDEA/annual202021_NV-01%20SPPS%20and%202021%20PS%2010%20to%2020.pdf Nevada State Leadership Team (SILT) Action Plan: Includes indicators specific to systems improvements
Children with Disabilities	Department of Health and Human Services	Director's Office Programs	IDIA Part C (birth through 2-year-olds)	The Part C Office provides the oversight of each intervention services of the individual child and their family. The IDEA was created with a vision for comprehensive, integrating, multidisciplinary, family centered, and community based services accessible to all infants and toddlers with disabilities and to their early and late life for disabilities.	% of toddlers exiting Part C with timely transition planning (3)	% of families participating in Part C who report that EI services have helped family: a) know their rights, b) effectively communicate their children's needs, and c) health their children develop and learn (4)			
Diversity and Inclusion	Department of Health and Human Services	Director's Office Programs	Office of Minority Health and Equity	The vision of the Nevada Office of Minority Health and Equity (NOMHE) is to achieve optimal levels of health and wellness for all minority groups and marginalized communities across the state. NOMHE's mission is to avoid and/or reverse disproportionately experienced, health-related disparities among the state's most vulnerable, high-risk populations.					Embedding health equity principles into the operations of state agencies and human service providing organizations; Collaboratively developing strategies to achieve sustainable, system-changing initiatives; Generating public awareness and education around disparities in health outcomes; Partnering with stakeholders/subscribers invested in health equity whose focus impact all categories of the social determinants of health; Providing equity-focused technical assistance to organizations ranging from public or private sector to faith based institutions; Serving as the cross-jurisdictional liaison to identify equity-focused resources, grants and information for maximum distribution; Facilitating academic and/or scientific investigations or needs assessments to produce minority-specific health data and amplifying the findings; Encouraging clinical trial participation; and Monitoring and/or influencing health-focused policy development for inclusiveness and responsiveness to minority health needs. Tina Dorchel email on 10/13/22. At this time, NOMHE does not track indicators https://dhhs.nv.gov/Programs/CHAE/MI/
Mental Health	Department of Health and Human Services	Division of Child and Family Services	Children's Mental Health Services - Mobile Crisis Response - Community Based Mental Health Therapy - Medication Management - Early Childhood Day Treatment - Child Care Consultation - Wraparound Care Coordination						State of NV: https://dhhs.nv.gov/Programs/CMH/ State Children's Mental Health Policies and Procedures: https://dhhs.nv.gov/Policies/CMH/Chapter_1/ Mobile Crisis Response: http://www.humanities.com/News/How-are-We-Doing

Safety	Department of Health and Human Services	Division of Child and Family Services	Child Death Review						
Nutrition	Department of Agriculture		Child and Adult Care Food Program (CACFP)	USDA's Child and Adult Care Food Program plays a vital role in improving the quality of day care and making it more affordable for many low-income families. Each day, 2.6 million children receive nutritious meals and snacks through CACFP. The program also provides meals and snacks to 74,000 adults who receive care in nonresidential adult day care centers. CACFP reaches even farther to provide meals to children residing in homeless shelters, and snacks and suppers to youths participating in eligible after-school care programs.	One of the best measurements of success in CACFP is tracking the participation. We do complete a report called an FNS-644 report that tracks the participation and other items. You can view what the report includes here: https://www.fns.gov/programs/cacfp/ (password: us)			Participation metrics, such as communication/outreach to organizations that are interested in participating in CACFP conduct monitoring (administrative reviews) of sponsoring organizations to be sure they are compliant and are successful	https://www.fns.gov/programs/cacfp/ Brochure emailed from Summer on 10/11/22
Nutrition	Department of Agriculture		SNAP	NDA does not collect 89% for SNAP					Per Rose, NDA does not collect metrics for SNAP
Nutrition	Department of Agriculture		Summer Food Service Program	The Summer Food Service Program (SFSF) is a federally-funded, state-administered program. SFSF reimburses program operators who serve free healthy meals and snacks to children and teens in low-income areas. The need for healthy nutrition does not end when school lets out for the summer. The Summer Food Service Program (SFSF) fills that gap by providing good, nutritious food "hot" when school is "out." It ensures that children ages 18 years or younger in low-income areas, can continue to receive nutritious meals during school vacations.					Number of sites Meals served annually NV Dept. of Agriculture: https://agri.nv.gov/summerfood/ -1461-74632SummerR20Food20Service20Program20nutrition20meal20meal20meal20school20vacations Summer Food Service Program Administration Guide: https://www.irs.net/Documents/Child-nutrition-operations.pdf Signed: https://agri.nv.gov on 11/9/22. The FNS-418 Reporting Form (https://omb.report/cv/2017010584-00380c705434101) is used to collect data on the number of sites & meals served annually to track program success/growth

Employment	Department of Employment Training & Rehabilitation	Employment Security Division	Commission on Postsecondary Education						
Early Childhood Education	Nevada System of Higher Education	Child Care Access Means Parents in School Program (CCAMPIS)	Child Care Access Means Parents in School (CCAMPIS) is a federally funded Department of Education grant. The UNLV CCAMPIS Program will provide childcare services and wrap-around services for up to 50 selected students. Award amounts will cover 95% of children care costs and will be paid directly to the child care center. Applicants are responsible for 5% of children's tuition and registration fees. Factors that will be considered when selecting UNLV CCAMPIS award recipients include level of financial need, enrollment and GPA, and availability of childcare spots for the appropriate age group of the child(ren). The University of Nevada, Las Vegas (UNLV)-Consolidated Students University of Nevada (CSUN) Preschool is housed in the Lynn Burmest Early Childhood Education Center on the UNLV Campus. The mission of the UNLV/CSUN Preschool is to provide a model inclusive early childhood program that serves children six weeks to five years of age of students, faculty, staff, and the surrounding campus community. In the field of early childhood care and education evolves to meet the growing needs of today's young children and their families, our preschool will continue to play a leadership role in teaching, training, and research at UNLV.	Attendance record at childcare program Child development data (2 times per year)	University student/parent enrollment data (enroll loads, GPA, completion) University student/parent financial aid status Parental confidence and knowledge of child development and learning			Program satisfaction (3 times per year, plus exit data for participants completing program) Event evaluations Participant data (program events, volunteer activities)	https://omb.nv.gov/cv/022009-1840-094/00a/00000001 https://www2.ed.gov/programs/campus/performance.html https://www.unlv.edu/studentaffairs/campus Sent email to Ellen/Clare of CSUN/Preschool on 10/25/22.
