

## Nevada Ready B-3

The State of Nevada, Department of Education “Nevada Ready – B-3”, has contracted with Turning Point, Inc. and its partners: National P-3 Center at the University of Washington; FirstSchool at the University of North Carolina at Chapel Hill; and the Center for Program Evaluation at the University of Nevada, Reno.

This Project Management Team will support the development of practices and systems for using data to promote effective Birth-Third grade (B–3) learning communities, B-3 leadership, connections between policy and practice, and between leaders, educators, and providers across the B-3 continuum. In partnership with many of Nevada’s experts and stakeholders, this team will facilitate deep and lasting cultural shifts in B-3 schools, communities and programs that are essential to meaningful changes in practice.

A participatory approach will be used to plan, implement and evaluate the Nevada B-3 Program throughout three Projects. Strategic effort will focus on developing a comprehensive plan for a B-3 system in the state of Nevada. This overlapping system will include state policy infrastructure as well as local-level implementation to support teaching and learning at scale across the state while strengthening what happens day-in and day-out inside classrooms, early learning programs, and homes.

The three projects will move from plan development to implementation of B-3 in Nevada from January 1, 2017 through June 30, 2019

In the next six months you may be asked to participate in one or more of the following key activities:  
Statewide Committee  
Key Stakeholder Interviews  
On-Line Needs Assessment Survey

We appreciate your involvement and input and look forward to learning from you as the projects progress. For more information about Nevada Ready B-3, contact Turning Point, Inc. Project Manager.
