

Program and Resource Inclusion Requests

Report to the ECAC Executive Leadership Subcommittee

March 2025

Overview: First 5 Nevada launched in April 2024 and included 27 programs operated by nearly 60 different organizations throughout the state. We also included key resources (services available but not included in the First 5 Nevada eligibility screener). To accommodate additional requests to have programs or resources included on First 5 Nevada, we established an application process and an Advisory Committee (currently 6 members) to review applications. A link to the criteria for inclusion and application are available on the First 5 Nevada “Contact Us” page.
